

SBLOC INTEREST RATE INFORMATION

Determination of the variable and fixed interest rate tiers for a Securities-Backed Line of Credit (SBLOC) account is based on the maximum drawing power of the loan as indicated in The Bancorp's Commitment Letter (Commitment Amount), the sum of The Wall Street Journal Prime Rate (WSJP), and the applicable margin.

Borrowers have the ability to revolve the credit line, giving them the flexibility to repay the line without early prepayment penalties. There is no minimum draw amount and there is no time limit to make an initial draw on the line. In addition, clients with a variable rate can convert to a 36-month fixed rate any time during the life of the loan at no cost.
